Cleaning process

Regular light brushing and vacuuming will help maintain fabric appearance. Wipe clean with warm water using a micro-fibre cloth. Never use polish, stain remover, solvent or abrasive cleaning cloths. Professional dry clean in-situ only. Regular cleaning will help the fabric appearance and prolong its useful life. Remove spillages promptly.

To avoid shading, upholsterers must ensure the pile of the fabric follows the same direction.

A versatile flame retardant decorative chenille fabric for use within contract interiors.

Flame Retardant to Crib 5.
